

Your Child's Health is Serious. So is HPV.

Make Sure Your Children are Protected.

HPV VACCINE IS CANCER PREVENTION

Did you know that 99% of cervical cancers and almost 80% of oropharyngeal cancers (throat) are caused by Human Papilloma Virus (HPV)?

**Have your questions answered by
a community of professionals
and parents!**

Bring a friend and join us for dinner, a movie, prizes and an intimate opportunity to learn how to protect your child from HPV!

Wednesday, May 10, 2017

6:30—8:30 pm

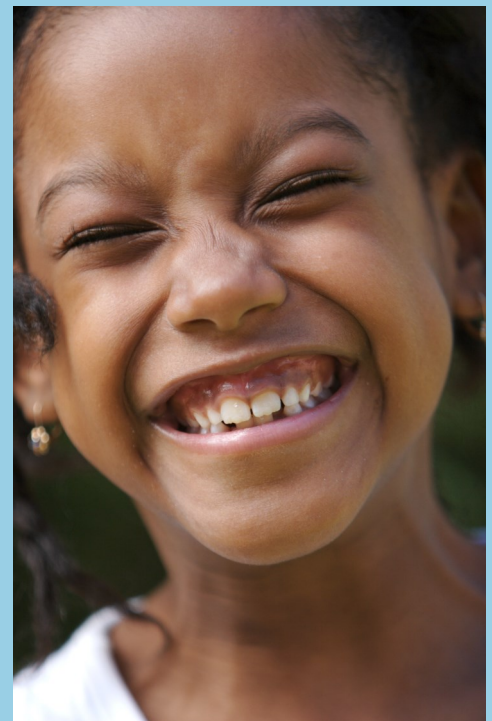

(registration and dinner begins at 5:30 pm)

**Northside Hospital Forsyth, Bennett Classroom
1200 Northside Forsyth Drive, Cumming, Georgia**

Please Register Online by May 8th for this FREE event
