

EPI/EH Notification Procedure Summary---UPDATED May 2019

Focus: EPI & EH departments working together to ensure each department gets the necessary information needed to perform job duties and protect public health to the best of their ability.

District Epidemiology Contact Info:

RABIES SPECIMEN RESULTS

- GPLH provides results directly to the submitter (i.e. EHS) by phone (direct line/cell) per info on submission form
- EHS provides results to appropriate persons
- SENDSS lab report is updated by GPLH with results

FOOD/WATER/VECTOR BORNE ILLNESS

- EH needs to be informed of outbreaks, including those at assisted living facilities, to ensure that the proper EH assessment/investigation is conducted where necessary
- EPI will email both Jon and Jennifer reports pertaining to these and other regulated facilities (Food Service, Pool, Body Art, Tourist Establishments); Jon/Jennifer will notify applicable EH Office staff
- Vector Borne Illness complaints: EPI notifies both Jennifer and Jon of confirmed lab report; Jon/Jennifer will notify applicable EH Office staff and the Mosquito Surveillance Team, if necessary, for risk assessment
- EH staff will email EPI a written summary report of the findings, including what, if any, action was taken in regards to regulated operations, etc. as determined from the EH assessment

ELEVATED LEAD LEVELS

Scenario 1—Clinic receives initial report

1. County Health Department Clinics are to report elevated lead levels to District EPI and notify County EH Office
2. District/County EH notifies Jennifer and Jon regarding any reports received of elevated lead levels from the clinics/SENDSS
3. District EPI will **fax EBL reports to the State EH Lead Office at 404-463-4039 Attn: Yu Sun** to ensure receipt of report; If District EPI is unavailable, Jennifer/Jon will fax the report
4. State EH Lead Office will review all reports and coordinate with Regional Lead Coordinator for follow-up
5. If assistance is needed with contacting parents or with home investigations, Regional Lead Coordinator will reach out to District 2 Lead Investigator(s) for involvement
 - Regional Lead Coordinator is **Flor Mendoza (Dalton District)**
 - District 2 Lead Investigators are: **Renita Stroupe & Vicki Hufstetler**

Scenario 2—EH receives initial report

- County EH Offices are to report elevated lead levels received by their offices to District EPI, Jennifer and Jon
- District EPI will **fax EBL reports to the State EH Lead Office at 404-463-4039 Attn: Yu Sun** to ensure receipt of report; If District EPI is unavailable, Jennifer/Jon will fax the report
- See Steps 4 and 5 above

ANIMAL BITES

- District/EPI receives reports from Georgia Poison Center or medical facilities via fax
- EPI scans in/emails the encrypted report to the county EH office that the victim resides in, copying Jennifer and Jon
 - See email list below by county (page 3)
 - PLEASE NOTE: IF MORE THAN 1 EMAIL ADDRESS IS LISTED, REPORT(S) ARE TO BE SENT TO BOTH EMAILS FOR THE RESPECTIVE COUNTY
- EH office fax numbers are included below (on page 4), should they be needed as an alternate method of getting the reports to the counties
 - If so, the fax with receipt/confirmation page should be scanned into an email to Jennifer and Jon
 - Please note that Fulton County EPI's info is included in the list since we still often receive reports out of that area. In such case, the info should be sent to both the fax number and email listed.
- Reports received by District 2 EPI for other counties outside D2 will be forwarded to the appropriate EPI and/or EH office by EPI, with assistance of Jennifer and Jon if needed.
- NOTE: If medical facility animal bite reporting issues are discovered by EH, notify EPI for follow up with the facility regarding reporting requirements**
- **For Rabies Post-Exposure Vaccination Info (facilities where vaccines can be administered, indigent patient vaccine support info, etc.), see page 5 below**

MISCELLANEOUS COMPLAINTS

- District/EPI receives various complaint type reports from Georgia Poison Center via fax
- EPI scans in/emails the encrypted report to the EH Office in the county that is indicated in the report, copying Jennifer and Jon (refer to EH email list on page 3)
 - (i.e. complaint regarding hotel cleanliness---send to county of hotel location if provided in report; mosquito/stagnant pool complaints—send to county of address where issue is indicated)
- If limited information is provided in the report or if unable to determine where the complaint should be directed, email to Jennifer and Jon only
